

COMPUTER & STATISTICAL SERVICES

Computer department is basically a service department equipped with the latest computer system, a laser printer, colored inkjet printer, scanner and software like MS Office 97 and SPSS. The department helps the M.Sc and Ph.D. students in their thesis work by helping them in their data entry and analysis of data.

The department helps in the compilation and generation of Annual Report. It conducts lectures for student and staff to help them to use the computer in their daily routine work.
