RESEARCH STAFF	
RESEARCH HIGHLIGHTS	
I. COMMUNITY STUDIES	
1. A rapid survey on diet and nutritional status of Saharia - A primitive tribe in Rajasthan	17
2. Study on the current status of fluorosis and steps to control health risks of fluorosis in the North-Western districts of Tamil Nadu	21
3. Smoothing Centile Curves of BMI for Rural Indian children by using LMS method	24
4. Nutrition profile of community : Uttar Pradesh - A district level survey	27
5. Prevalence of overweight and obesity and its predictors among urban adolescent school children (12-17 years) of Rangareddy district, Andhra Pradesh	29
II. WOMEN AND CHILD HEALTH	
1. Body composition measurement by Dual Energy X-ray Absorptiometry (DXA) in women from an urban slum	30
2. Pregnancy induced hypertension and antioxidant nutrition	33
3. Vitamin A modulates immune response in acute respiratory infections	35
III. MICRONUTRIENTS AND TRACE ELEMENTS	
1. National facility for dried blood spot (DBS) technology for vitamin A estimation	39
2. A country investment plan for food fortification in India	40
3. Stability of iodine in double fortified salt (DFS): A short term study	41
IV. STUDIES ON MOLECULAR BIOLOGY	
1. Role of dietary n-3 PUFA or trans fatty acids in fetal programming of insulin resistance in rats: Biochemical and molecular mechanisms	48
2. Is resistin a pro-inflammatory molecule?	49

## V. STUDIES ON CATARACT

1. Curcumin and turmeric delay streptozotocin-induced diabetic cataract in rats	37
2. Chaperone activity of $\alpha$ -crystallin under diabetic conditions: Modulation by curcumin	40
3. Inhibition of protein glycation by dietary agents	43
4. Effect of methylglyoxal on degradation and stability of $\alpha$ -crystallin	47
5. Insights into the hydrophobicity and chaperone function of $\alpha$ -crystallin: Isothermal titration calorimetry study	50

## VI. PATHOLOGY

Effect of maternal malnutrition on fetal pancreas	54
---	----

## VII. EXTENSION &amp; TRAINING

A. Service Activities	56
B. Research activities Implementation of FAO's Feeding minds, Fighting Hunger (FMFH) Programme - An Exploratory Study	63

## VIII. FOOD &amp; DRUG TOXICOLOGY RESEARCH CENTRE

## A. Food Safety

1. Occurrence of transgenic material in different varieties of BT cotton	68
2. Effect of different types of domestic processing on phenolic content and AOA of selected foods	69

## B. Cancer and Xenobiotics

1. Antigenotoxic potential of ginger	72
2. Ethnopharmacological validation of biodynamic compounds in traditional medicine	73
3. Impact of intervention programme on Rational Use of Drugs (RUD) (Phase - III)	75

IX. PRE-CLINICAL TOXICOLOGY	
Safety/toxicity studies of Ayurvedic formulations (a,b,c,d,e)	78
X. NATIONAL CENTRE FOR LABORATORY ANIMAL SCIENCES (NCLAS)	
A. Service Activities	80
B. Research Activities	
1. PCR based DNA fingerprinting of WNIN strain and its obese mutants	84
2. Genetic typing of WNIN/Ob and WNIN/GR-Ob strains using microsatellite markers	85
INSTRUMENTATION SERVICES	86
LIBRARY AND DOCUMENTATION SERVICES	90
Ph.D PROGRAMMES	92
AWARDS/ HONOURS CONFERRED ON SCIENTISTS	95
PARTICIPATION OF SCIENTISTS IN INTERNATIONAL MEETINGS	96
WORKSHOPS/CONFERENCES/SEMINARS/TRAINING PROGRAMMES HELD AT NIN	97
SERVICES RENDERED TOWARDS INCOME GENERATION	98
SCIENTIFIC PUBLICATIONS	99
SCIENTIFIC ADVISORY COMMITTEE	102
