

# **Regional Medical Research Centre**

(Indian Council of Medical Research)

Nehru Nagar, Belgaum 590 010

---

**Regional Medical Research Centre, Belgaum is one of the six RMRC established by ICMR with a mandate of scientific validation of traditional medicine and herbal remedies.**

## **VISION:**

To establish a national centre to promote research collating inter-systems of medicine and to bridge the gap between modern and traditional medicine.

## **MISSION:**

Cost-effective quality health care through traditional and indigenous systems of medicine.

## **OBJECTIVES:**

- Scientific validation of Traditional Medicine (efficacy, safety, mode of action and clinical trials)
- To collect information on prevalence of diseases at regional level and the role of Traditional Medicine in treating these diseases
- To create database for medicinal plants of Western Ghats
- To improve infra-structural facilities and to strengthen human resources in the area of Traditional Medicine
- To work in close collaboration with traditional medicine practitioners in the region to create
  - General awareness
  - Promote scientific temperament and
  - To disseminate information
