Preface	
Staff position	
Budget	
Executive Summary	
Research Works	
(A) Cardio-vascular Diseases	
1. Study on coronary heart diseases and hypertension in Mizoram	
2. Study of some genetic aspects of essential hypertension in NE region	
3. Salt sensitivity and gene polymorphism in essential hypertension	
4. Risk factor surveillance of Non-communicable diseases	
(B) Cancers	
5. Population based north-east cancer registry programme	
6. Comprehensive study of carcinoma oesophagus at NE India	
7. Cancers in north-east India: understanding the role of tobacco & pesticides	
(C) Mosquito-Borne Diseases : Malaria	
8. Anti-mosquito and anti-malarial activities of some select plants of NE India	
9. Therapeutic trial of SP alone & SP+Artesunate in Indo-Myanmar districts of Arunachal Pradesh	
10. Malaria control in a forest village of Assam-a pilot study	
11. Incidence & molecular characterization of G-6-PD deficiency in NE India	
Miscellaneous studies related to malaria	
Filariasis	
12. Integrated filariasis control in a tea garden set up	
Japanese encephalitis	
13. Epidemiological evaluation of the impact of ITMNs on JE	
14. Development of an early warning system for JE with remote sensing & GIS	
(D) HIV/AIDS and Drug abuse	
15. Studies on HIV/AIDS and drug abuse in Aizawl, Mizoram	
16. Studies on HIV/AIDS and drug abuse in Nagaland	
17. Mapping, size estimation & IBBA for HIV/AIDS in Manipur & Nagaland	
(E) Trematode infections	
18. Molecular characterization & infrapopulation differentiation of <i>Paragonimus</i> in NE region of India	
(F) Other microbial diseases	
19. Diagnosis and molecular epidemiology of tuberculosis in the NE India	
20. Multi-site monitoring of human influenza virus in India	
21. Epidemiological survey of sporotrichosis among tea garden workers	
(G) Social and behavioural sciences	
22. Health consequences of domestic violence with special reference to reproductive health	
(H) Outbreak investigations
