Regional Medical Research Centre
(Indian Council of Medical Research)
Nehru Nagar, Belgaum

VISION

To establish a national centre to promote research collating inter-systems of medicine and to bridge the gap between modern and traditional medicine.

MISSION

Cost-effective quality health care through traditional and herbal medicine.

OBJECTIVES

- Scientific validation of Herbal Medicine (efficacy, safety, mode of action and clinical trials)
- To collect information on prevalence of diseases at regional level and the role of Herbal Medicine in treating these diseases
- To create database for ethnomedicinal plants of Western Ghats
- To improve infra-structural facilities and to strengthen human resources in the area of Herbal and Traditional Medicine
- To work in close collaboration with traditional and herbal medicine practitioners in the region to
 - Create general awareness
 - Promote scientific temperament and
 - Collect, collate and disseminate relevant scientific information in the area of herbal medicine
