## Message

*Regional Medical Research Centre, Belgaum has been established to promote research collating inter-systems of medicine and to bridge the gap between modern and herbal medicine with mission to provide cost- effective quality health care through traditional and herbal medicine. On the occasion of release of this center's first annual report I hope its mandate to promote scientific temperament and create general awareness on medicinal plants and herbal medicine in the region gets noticed. I wish the Officer-in-charge all success in this endeavour and hope that the Centre progresses well under his stewardship.*
