5TH GLOBAL FORUM ON TB VACCINES

Partnering for Progress and Innovation

New Delhi, India, 20-23 February 2018

India's research expertise, its manufacturing capacity, and the important role that India plays in global efforts to end the tuberculosis (TB) epidemic make it an exciting venue to host the 5th Global Forum on TB Vaccines.

The Global Forum on TB Vaccines is the world's largest gathering of stakeholders striving to develop new vaccines to prevent TB. It provides a unique opportunity to review the state of the field, share the latest research and findings, and identify new and innovative approaches to TB vaccine R&D, with the end goal of developing and deploying new TB vaccines as quickly as possible.

Please save the date to join the TB vaccine research community for this unique and important event.

For more information, visit

www.tbvaccinesforum.org

Abstract submission deadline is 29 September 2017 (new)

Visit www.tbvaccinesforum.org/program/abstract-information/
