

# HOSPITAL BASED CANCER REGISTRY

## Tata Memorial Hospital, Mumbai (Bombay)

**Dr.K.A.Dinshaw**, D.M.R.T. (Lond), F.R.C.R.(Lond),:Director & Principal Investigator

**Mr.D.N.Rao**, M.Sc., Co-investigator, Head, Division of Epidemiology & Biostatistics,

**Dr.P.B.Desai**, M.S., F.R.C.S., F.A.C.S., F.C.P.S., Project Chief (till 1995)

**Dr.P.D.Shroff**, M.B.B.S., F.C.P.S., Senior Investigator (till 19th November 1997)

### INTRODUCTION

The Tata Memorial Centre (TMC) comprises of Tata Memorial Hospital (TMH) and Cancer Research Institute (CRI). This is a grant-in-aid institution supported by the department of Atomic Energy, Government of India. The main activities of the centre are diagnosis, treatment, research as well as in training and education to provide the highest standard of patient care.

### TATA MEMORIAL HOSPITAL

The TMH is a comprehensive cancer centre with the state of art equipments for diagnosis and treatment. Patients from different states in India and abroad attend this hospital. On an average, 1,500 patients attend this hospital every day.

The hospital consists of departments like Surgery, Medical Oncology, Radiation Therapy, Radio-diagnosis, Pathology, Cytology, Biochemistry and Laboratory Medicine. The department of Radio-diagnosis is equipped with the latest equipments like CAT Scan, MRI, X-ray machines (1000 mA, 500 mA), Mammography, Orthopantograph X-ray and Ultrasonography machines for the diagnosis of cancer. The supportive care facilities for cancer patients like Physiotherapy, Ostomy Clinic, Occupational Therapy and Transfusion Medicine are also available. Over-500 patients attend the hospital for radiation treatment on daily basis. The hospital has new Digital Library.

The hospital has over 475 in-patient beds available for patient care.

The hospital has the infrastructure to carry out Bone Marrow Transplantation technique and over 20-30 patients receive the treatment annually.

The First Rural Outreach programme for early diagnosis and treatment started by the Centre at Barshi is continued by the Nargis Dutt Memorial Cancer Hospital (Aswini Cancer Research and Relief Society), Barshi with the support of the TMC.

TMH is a post-graduate teaching centre, affiliated to the University of Mumbai, National Board of Examinations, New Delhi and Maharashtra University of Health Sciences, Nasik. The Post-graduates courses (M.D) in Pathology, Radiodiagnosis, Radiotherapy, Anaesthesia (DA), (DMRD) Radiodiagnosis, and (DMRT) Radiotherapy are available and over 30 students are registered for these courses annually. M.Ch. (Surgical Oncology) and DM (Medical Oncology) courses are also available at Tata Memorial Hospital. In addition, many courses for Technicians are conducted in the Hospital.

The Tata Memorial Centre is a recognized training centre by national and international organizations such as WHO, UICC and IAEA. WHO/IAEA Fellows are provided training in various fields. In an ongoing programme on Continuing Education in Oncology, trainees are registered for courses such as (i) Oncology Training Programme for Doctors (ii) G.I.Endoscopy (iii) Medical Oncology/Clinical Oncology (iv) Radiotherapy and Radiodiagnosis Training Course (v) Oncology Nursing Training Course (vi) Diagnostic Cytology Training Course (vii) Certificate Course in Enterostomal Therapy and (viii) Apprenticeship in Pathology Department.

The Hospital has been actively involved in implementing an integrated and on-line information system for (i) Patient Administration comprising of OPD Registration, Appointments, Follow-up, Admission-Discharge-Transfer System for in-patients, Billing, Receipting system, etc (ii) Inventory Control System for Purchase, Stores, and Dispensary. This software makes use of Visual Basic as a GUI based front end and DB2/400 on As/400 as the back-end database.

The Department of Preventive Oncology conducts lectures and audiovisual presentations educating children on the ill effects of tobacco at 28 schools and colleges. The Department also arranges poster exhibitions, lectures, workshops etc. on the ill effects of tobacco and Cancer Awareness programmes at 19 different locations for students as well as for public.

## **CANCER REGISTRY**

Cancer Registry maintains cancer related information such as site of disease, histological classification, clinical extent of disease and primary treatment since 1941. Over 1,100 patients were diagnosed as cancer cases in 1941, since then there has been increase in patient attendance and at present over 25,000 new patients get registered and over 15,000 patients are diagnosed as suffering from cancer annually.

The Population Based Cancer Registry (PBCR) for Greater Bombay was started in the year 1966 and TMH Cancer Registry has been the important source for getting information on resident cancer cases. As TMH is a well-recognized institution, patients from other states of India and abroad attend the hospital for expert medical care and opinion. Thus, this cancer registry has become an important source to identify resident cancer cases of PBCRs like Bhopal, Delhi, Madras and Barshi in NCRP network.

The cancer registry operations were computerized since 1985 using Norsk Data 550 computer, installed in the hospital. The standard international code such as International Classification of Disease for Oncology (ICD-O-1, ICD-9), TNM (WHO) are used to classify the disease (topography and morphology), clinical extent of disease etc. and codes for demographic variables are also being used. As cancer is not a notifiable disease, information about patient's health status is obtained through active follow-up of patients, mostly by postal inquiry.

The Cancer Registry brings out comprehensive annual report on cancer statistics covering various aspects of cancer management and care. End Results Reports on head and neck cancer and breast cancer are published periodically. Epidemiological studies and case-control studies are carried out to identify high risk and associated factors for common cancers like head and neck, oesophagus and breast cancers and the results are published in Indian and International Journals.

Staffs from other hospital cancer registry are given training in cancer registry techniques and over 20 personnel have been given training so far. Cancer registry staffs also attend various workshops on cancer registry operations and are trained well in various aspects of cancer registration.
